

A virtual digital department :

- From websites to the latest iPhone Applications, to operational logistics - we make technology work.
- We identify and devise digital strategies and services for clients using a mix of 'best fit' technologies.
- We bring together best business practices to deliver interactive applications and services across multiple digital platforms...

We create new opportunities to succeed.

Solutions tailored to maximise value to you - and your customers

We believe that technology empowers by connecting organisations and businesses, information and customers, making communications available to any device, anywhere. At Milestone, we want our clients to take advantage of our experience in:

- Online and Social Media Strategy
- eBusiness, eCommerce and online revenue generation
- Digital brand strategy and development
- Digital production - from video to iPhone Apps
- Mobile strategy and implementation
- Business logistics
- Enterprise integration

We want our clients to think of us as a virtual digital department - without the associated overheads of hiring and managing a market-leading team.

Give us a call to find out how we can transform your digital outlook.

"With companies coming together to make the cleanup in the Gulf of Mexico a reality, finding a way to link all the teams from all over the world and throughout the USA on land and sea... This agreement with Milestone for the provision of JumpStart Wireless technology, will enable our logistics team via both hand held devices and satellite phones with a virtual data hub, to receive real time data and fleet positioning and GPS-positioning of oil slicks, without which we would not be able to coordinate our operations."

Tony Blakey
Chairman, Ultra Green Oil Recovery
